ICAS 2023 Conference Keynote Speakers

ROY CERQUETI (PhD) is Full Professor of Statistics at Sapienza University of Rome, Italy and Director of the Doctoral School in Social and Economic Sciences. He is also Research Affiliate of the GRANEM, a Research Center hosted by the University of Angers, France. Previously, he was part time Professor at the London South Bank University, UK. He is a member of the scientific committee of the PhD program "Quantitative Methods for Economic Policy" at the University of Macerata. He was also a review Panel expert in the COST Action Proposal Submission, Evaluation, Selection and Approval procedure (appointment by the Italian Minister of University - Office of the National Coordinator of COST projects) from 2017 to 2019.

Mr. Cerqueti has published more than 150 scientific articles, most of them in highly-ranked international journals. He regularly participates in international conferences as an invited speaker. He has several editorial assignments and regularly performs referral services for many journals and scientific institutions. His current research focuses on financial modelling, data science, complexity, quantitative methods for economics and finance.

DANIELA ȘTEFĂNESCU (PhD) is the Director for European Affairs and International Cooperation at the National Institute of Statistics in Bucharest. She holds a PhD in Statistics and has extensive academic experience in teaching Statistics, being also an Associate professor at the Bucharest University of Economic Studies.

She played a pivotal role in integrating Romanian statistics into the European Statistical System and co-chaired the "Statistics" working group during the Romanian Presidency of the EU Council. Currently, she serves as the national coordinator for Romania's accession to the OECD in the statistical field.

She has been involved in various international projects, such as conducting a global assessment of the Ukrainian statistical system and analyzing the Moldavian statistics in line with the Code of Practice principles. She also worked as a medium-term TAIEX expert in Northern Cyprus to establish the legislative framework for the statistical bureau and enhance its functionality.

Mrs. Ștefănescu represents the Romanian Government as a statistical expert in the Republic of Moldova and she assisted various countries, including Estonia, Ireland, Iceland, and Liechtenstein, in aligning their statistical systems with the Code of Practice. Furthermore, she conducted missions in Serbia, Kosovo, and Bosnia and Herzegovina as an expert on dissemination matters and served as a UN observer for Population and Housing Census.

ANDREI RĂDULESCU (PhD) is the Director of Macroeconomic Analysis at Banca Transilvania and a Senior Researcher at the Institute of World Economy, Romanian Academy.

He holds a Ph.D. in Economics. His areas of expertise include macroeconomic analysis and forecasting, as well as global economics, with a focus on the United States, China, the Eurozone, as well as Romania and Moldova.

Mrs. Rădulescu has delivered presentations on macro-financial topics at conferences in 40 countries and is an active presence in the Romanian media.
